THE NORWAY ADVERTISER

(OXFORD COUNTY, ME.) AUGUST 17, 1906, NORWAY, MAINE. VOLUME XXXVII

Democratic Rally.

The first practical gun of the fall campaign was fired in Norway, Saturday evening, when the Democrats held their rally with a good attendance.

The band played several selections in front of the Opera house, also in the hall before the speeches. On the stage besides the speakers were seated the following Democrats: Sheriff B. G. McArthur, Justin McIntire, C. N. Tubbs, S. S. Smith, who cast his first vote in 1840, F. H. Savin, Wm. Frothingham and Hon. A. S. Kimball.

Hon. A. S. Kimball introduced the speaker with a few well chosen remarks.

The first speaker was Matthew McCarthy, ex of Rumford Falls.

Mr. McCarthy said in part: It is a pleasure to come to Norway and present to you some of the issues of the campaign. The Democrats of Maine are right there in the trenches and courageously. There is an awakening throughout Maine. An awakening that will overthrow the Republican party. We should welcome this condition. Tonight I shall confine my remarks to one question, the prohibition question. This law was enacted about fifty years ago. Twenty-two years ago some of the Republicans got it into their heads that it should be put into the constitution.

We go to Republican sources for information in regard to the way the fight there has been conducted. Nearly every rumrunner in Bangor is a Republican ward politician. The Republicans did something in the last legislature but injured the people. The Sturgis commission was instituted to go into counties where the law was nullified. They do not dare to send this commission to Bangor because they are afraid of losing votes. It has been proved that there are about 30 places where it is an easy matter to obtain liquor there.

The 27 Sturgis deputies are costing the tax payers something. This year up to June 1 it had cost \$16,000. The prohibition law should be resubmitted to the people of the State.

Not only Democrats but a respectable number of Republican are asking for it. Prohibition law should be enforced as other laws are enforced but if the people want local option or license they should have it.

Mr. McCarthy is the Democratic candidate for attorney of Oxford County, and is a very able and interesting speaker.

Following Mr. McCarthy Hon. Cyrus W. Davis, Waterville, Democratic candidate for governor, was introduced and spoke in part as follows:

Ladies and gentlemen, boys and girls: It always gives me pleasure to address the boys and girls as well as the older people as they are soon to take our places as citizens. I have pleasant memories of my visit to your town two years ago. I come to you as a citizen to talk to you on the issues of the campaign. I am going to talk to your pocket books. The Democrats that met in Bangor in convention this year adopted a platform which included local self government, that labor receive a just reward, that there be a State system of roads, a great highway extending through the entire state, equal taxation, repeal of the Sturgis law, and re submission.

The question being asked through out the state is, will Maine be honest? If the Republicans tell you what they have done for the state ask them how it is five out of the sixteen counties and eleven cities are under the Democratic banner.

I want to show you the record. It isn't very interesting but every one should know it. The state assessors report shows that the average tax in 1906 was \$21.03. The individuals tax is \$21 on the thousand while the wild land tax is 6 mills on the dollar and the railroad owning 50 millions worth of property pay about 6 mills tax. You have confidence and it has been misplaced.

Mr. Davis talked of the expense in public printing and other things that causes the tax to be so high. Also dwelt at some length on the prohibition question. He claims that the Sturgis commission has been no benefit to the country but an expense.

Reunion of Class '91.

Norway High School.

A reunion of the class of Norway High School of 1891 was held at the residence of Mr. and Mrs. Moses F. Stiles on Cottage street, Wednesday evening. Those present were Mr. and Mrs. M. P. Stiles, Dr. and Mrs. H. L. Bartlett, Jennie Baker, Lizzie Whitmarsh Sampson, Solomon Jackson, Mr. and Mrs. Fred Perry, Mr. and Mrs. Owen Brooks, Sadie Millett, Evis Kimball Allen and Jennie Cole Foster, all of Norway and vicinity, and Martha Tracy of Lawrence, Mass.

Guests present who were not members of the class were Mr. and Mrs. L. O. Glover of Fall River, Mass., Martha C. Meserve of New York City, Maud Crawford of Portland and Mrs. Susan Cragin of Norway.

The entertainment consisted of an animal contest. Letters were placed on tables from which the names of birds, beasts and fish were to be formed. Those making the most names received a prize. Mrs. H. L. Bartlett received the prize at one table and Owen Brooks at the other. The prizes consisted of twisted doughnuts set up on toothpicks in the form of animals.

An auction was conducted with Mrs. H. L. Bartlett as auctioneer. Small parcels were done up in which were toys, trunks, etc. Twenty beans were furnished each one present which were used in the purchase of these articles.

Supper consisting of salmon salad, rolls, olives, coffee, cake and ice cream was served. The table was beautifully decorated with sweet peas. Instead of toasts, topics of conversation were furnished on neat little folders tied with the class colors, pink and green.

The topics were:

Planning our class tree.

My graduation viewed fifteen years later.

How our prophecy has been fulfilled.

Schemes for '91.

An interesting feature was the reading of the class prophecy by Jennie Cole Foster, which was written 15 years ago, and caused much amusement.

Owen Brooks sang a solo entitled, 'The Old Guard.'

It is an interesting fact that of the 14 girls and three boys that made up the class there has not been a death. The last reunion was held four years ago, and it is expected that not such a long time will go by again without a reunion, and it is expected to hold another one next year.

Carl Boynton entertained recently a party of 22 young ladies and gentlemen at Camp Comus, Lake Pennessewassee. The evening was spent in playing various card games. An informal musical program was also enjoyed. The covered grounds had been decorated for the occasion with Japanese lanterns and was even more than usually attractive. Light refreshments were served during the evening.

The Harvard Girl, a college musical frolic, was presented to the latest house of the summer season at the Opera House, Tuesday evening. The play is a good one with a large number of songs. Chicago Society Woman Who Was Sick She Could Not Sleep or Eat. Cured by Doan's Kidney Pills.

When a woman's kidneys go wrong, her back gives out and every little task becomes a burden. She is tired, nervous, sleepless, run down—suffers daily from backache, headache, dizzy spells, and bearing-down pains.

Don't worry over imagined "female troubles." Cure the kidneys and you will be well. Read how to find the cure.

Marion Knight, of 33 N. Ashland Ave., Chicago, Ill., member of the Chicago Federation of Musicians and a well-known club woman, says: "This winter when I started to use Doan's Kidney Pills I ached in every bone and had intense pains in the kidneys and pelvic organs. The urine was thick and cloudy, and I could barely get enough to live. I felt a change for the better within a week. The second week I began eating heartily. I began to improve generally, and before seven weeks had passed I was well. I had spent hundreds of dollars for medicine that did not help me, but \$2 worth of Doan's Kidney Pills restored me to perfect health."

A FREE TRIAL of this great kidney medicine which cured Miss Knight will be mailed on application to any part of the United States. Address Foster-McBarn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

Yearn Not For Riches. I yearn not for riches nor glittering pelf, All I desire is enough for myself, To live up to great wealth were too much of a task. The money that I yearn for is not there, My humble request is the things I desire, Nor disturb me, if only I live that way, While all that I wish for, or hope for, is mine. With no disappointments or trials in life, I think I can manage to live without regret, Indeed, I could rest fairly well satisfied, With all of my dreams and desires fulfilled. C. M. A. W. How to Keep Cool.

Some Suggestions for Dog Days Weather. The question that confronts many people during the hot sultry dog days weather is how to keep cool.

When it gets really very hot there are a few simple ways of cooling off the blood which are known to many but practiced by few. The most important rule is to dress comfortably and as coolly as possible. Women should leave rats, pompadour and false hair for the winter time, for there is nothing that makes one so hot and uncomfortable as a heavy switch or a mass of artificial curls.

A piece of cotton dipped in water and placed behind the ears so that it touches the big artery will cool one off wonderfully. To the water in which the cotton is immersed may be added a drop or two of ammonia and it will make one feel deliciously refreshed. Another way is to let cool water run over one's wrists for a short time.

When it is possible one should take two or three dips during the day and the feet should have proper care and ventilation night and morning at least. If it is unbearably hot a cold compress around the neck is delicious.

It is not so bad to have it hot in the day time when there is something to take up the mind but it is the long, hot, sticky nights that bring curses upon the weather.

In many instances people have discarded beds and are sleeping on the floor during the hot weather. Not on some heavy, heat producing mattress but on a thin quilt or cotterpane and when possible with the head on a pillow of fragrant pine needles.

Hot air rises and the cooler and fresher air remains close to the floor. Few people know that there is a difference of about five degrees between the ceiling and the floor in room from ten to twelve feet high, and there is at least a difference of one degree between the floor and the height of an average bed. There is a small advantage obtained in this way, but the material gain is not in the difference in the temperature of the air, but in the temperature of the body. It can be easily understood that a heavy hot mattress has a tendency to keep the heat in the body.

Sleeping on some hard object, according to some advocates of the floor plan, keeps the body in straight lines and makes it grow that way. A mattress lets the body sink so that some of the muscles are necessarily extended to hold it in position. On the floor all the muscles are relaxed, thus assuring perfect rest.

Sleeping on the floor will make one the least bit stiff for the first night or two, but those who have tried it say that after the first week one does not care to sleep anywhere else during the summer time.

If one does not care to try this mode of sleeping, an excellent way to keep cool in bed is to fill a hot water bottle full of cold water and place it at the back of the neck, where it will cool the blood and induce sleep.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. The cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, it is taken internally, acting on the system, thereby destroying the foundation of the disease, and giving the patient strength by continuing the treatment and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars to any case that it fails to cure. Send for list of testimonials.

Letter to E. N. Sweet.

Norway, Maine.

Dear Sir: How did you get your business? We'll tell you how we got ours. You sell shoes, we make paint; perhaps we can do a good turn to ourselves, you and we, by swapping experiences.

We began 152 years ago in a little shop a few minutes walk from where we are now; a great many things have happened, we don't remember them all. We made as good paint as we could and learned to make better. We are the oldest now; we don't know whether we had any teacher or not; it's so long ago; if we had, he's gone and forgotten. We should have been forgotten, if we hadn't made good paint and friends.

You buy your shoes; you have an advantage in that; if you make a mistake, you can stop it quick; if you make a hit, you can push it quick. We've had to go slow; it's hard to pick out one's own mistakes, and nothing but fun to correct the mistakes of others.

You know where to go for leather that keeps its shape, feels good, looks new, and wears a long time. What a comfort it is to be comfortable from making one's own mistakes.

We also have a unique advantage—unique, you know, means that nobody else has anything like it. We make a strong paint that takes less gallons, saves half the cost of painting your house, and it's like that leather of yours for wear. It is all paint and the strongest of paint. Paint is usually adulterated and weak.

We're very old, but we make young paint; one gallon is better than two, if it has the stuff in it. Yours truly,

F. W. Devos & Co., New York.

F. P. Stone, Norway, and W. S. Jackson & Son, West Paris, sell our paint.

FRYEBURG.

Lawn Party.

The New London church of Fryeburg held its annual lawn party on the grounds of the New Church hall on Thursday afternoon and evening, Aug. 16. The weather was ideal, warm and fair, and there was a very large attendance.

The lawn party this year was named the "Rainbow Fair." There were seven booths arranged within the park that was enclosed with trees and no two were alike in form or decoration. Each of these booths was tastefully decorated with one of the colors of the rainbow, and at the end was the mystery table and the traditional "Pot of Gold." The grounds and the decorations were pronounced more beautiful than any previous year, and the colored lights of the many Japanese lanterns added much to the attractiveness of the scene as the evening shadows gathered.

These arrangements were under the direction of Mrs. L. R. Charles, assisted by Mrs. W. L. Southern of Worcester, Mrs. W. A. Robinson of Lexington, Mass., the ladies in charge of the various booths and others.

At the red booth was found refreshing punch served by Mrs. George O. Warren and Mrs. Laura Weeks. The orange booth was devoted to the sale of various kinds of colored and fancy aprons, under the direction of Mrs. Charles Fox and Mrs. John Hutchins.

At the yellow booth was found the delicious home-made pies for which the ladies of this society are famous. Mrs. Charles Williams and Mrs. William Post were in charge here. The art booth was decorated with green and here were seen the art photographs of W. B. Post, the water color views of local scenery by B. T. Newman, and also pictures by Hattie Pike and Mrs. Edward Connor. This collection was the care of Hattie Pike and Mrs. Richard Chase.

At the light blue booth were the toothsome shortbreads and loaves of various kinds, which were served by Mrs. F. A. Wiley, Mrs. Morrison and Mrs. N. Charles. The dark blue booth was devoted to the sale of all kinds of fancy articles, mostly needle work, and here Mary S. Howe and Ann Wiley were the committee in charge. The last booth was decorated with violet and here many a youth and maiden sought to solve the mysteries of the various packages in charge of Miss A. C. Bradley and Miss M. E. Warren.

The flower table with its bright blossoms was an attractive place, and was cared for by Bertha Warren and August Walker. Near the hall was placed the "Rainbow Restaurant," where a fine supper, consisting of salads, omelet, cake, coffee, tea, etc., was served by Mrs. William B. Perry, Mrs. Charles Ladd and Mrs. George Shirley, assisted by a corps of young ladies as waiters.

This lawn party, both socially and financially, was the most successful ever held by the society. Among the visitors were Mr. and Mrs. Edward Connor of Spokane, Washington; Lizzie C. Shirley of California; Mrs. A. C. Bradley of Chicago; and Mrs. Mary Southern of Cleveland, Ohio. The latter is the widow of Rev. Samuel Southern and the elderly daughter of the late Dr. Ira Towle.

She celebrated her 81st birthday on the day of the lawn party and enjoyed very much the open air fête. There were also visitors from New York, Brooklyn, Orange, N. J., Boston, Worcester, Alexandria, Va., Concord, N. H., and Brookline, Arlington, Roxbury and Woburn in Massachusetts.

WEST PORTER.

Grasshoppers Broke up Dinner Party.

Gregory Williams, aged 14, of Brookbury, has been stopping with his mother at one of the cottages for two weeks. On Saturday he collected a can full of grasshoppers for fish bait. He forgot to take the can from his coat pocket. At the dinner table his mother, noticing the bunch in his coat, asked him what he had. The lad did not reply and she told him to show what it was.

Gregory opened the lid and in less time than it takes to tell a couple of hundred grasshoppers were doing the two-step among the dishes and guests. The insects got into the freezes of the ladies and caused more commotion than a fire. Two young women fainted and it was fully an hour before the room was cleared of hoppers.

One young woman whose hair was red drew hoppers by the dozen. They drove her into hysterics. In the excitement many dishes were broken and several evening dresses spoiled. These were people who had never seen hoppers before and it frightened them almost to death as they did not know what they were.

We have had some of the hottest days of the summer the past week. Sunday and Monday, the 5th and 6th inst., the thermometer registered from 95 to 100 degrees in the shade. Monday evening, the 13th, there was a change in the air, becoming very cool and refreshing, a good night to sleep.

Mrs. Callie Bicknell is very sick indeed, has been confined to her bed several days, a part of the time in delirious or wandering in mind. I am told, her daughter, Mrs. Elliott, is caring for her but her eldest daughter, Mrs. Leadbetter, has been notified of her mother's illness and is expected hourly.

A Verbal Lie.

There is a story going the rounds that the mail carrier, C. C. Lowell, was jammed by an automobile last Tuesday, and pulling his revolver, fired on it, puncturing their tire. Now I will say the story is not a true one, and the one who first told the story told a verbal lie.

Farmers will finish haying soon, then comes the packing of sweet corn. If the frost holds off there will be a fine crop.

I. S. Lowell, who is living in Baldwin, came up to his farm two weeks ago to do his haying. He worked a day or two and was taken sick and was obliged to go back home. The last we heard from him he was no better.

While Walter Spring was returning home from his work in our recent Monday evening shower, and as he neared the Sam

Base Ball.

Oxford Wins Out Over Radcliffe in a Rat-

ing Good Game.

A good sized crowd saw a bang up

game of ball, Saturday, on the Fair

Grounds, between Oxford and Norway.

Oxford was the winner by the close

score of 2 to 1.

Oxford scored one run in the fourth

on a base on balls to Adams and a long

two-base hit by Fischel, and one in the

eighth on a two-base hit by Sullivan and

an error by F. Farnum. Oxford had a hard try,

which might be scored as a hit.

The home team got their lone tally in

the last half of the ninth, when J. Farnum,

the first up, put a hot one close to

first that Pike could not quite reach.

Hayes put up a fly for Clason. Foshey

put a grounder to Pike, who let it go

through him and J. Farnum scored, and

Foshey took second. Leonard cracked

the ball over third base that went foul

by about two feet and then struck out.

Foshey evidently thought that Leonard

would make the third out and made a

dash for third and was an easy out—

Barce to Fischel—and the game was

over.

Cole was robbed of a two-base hit in

the first inning when the umpire de-

clared him out for not touching first

base. Spectators, who were as near to

first as the umpire and in as good position

to see, say that the decision was un-

fair.

The crowd did some tall "rooting" in

the ninth and simply went wild when J.

Farnum scored on Pike's error.

The fielding feature of the game was

contributed by J. Farnum, when he cap-

tured Clason's fly close to the foul flag,

and turned completely over, coming up

with the ball. It also remained for

"Jimmy" to contribute the only hit and

to score the only run for the home team.

Devine, from Oakland pitched a good

game and with a little stick work on the

part of his comrades, would have come

pretty close to winning.

The Boys of the N. G. S. M.

The boys of the Co. D. returned from Camp Cobb, Augusta, Saturday night. All reports go to show that the 1st Regiment, N. G. S. M., made a most creditable showing at the State Master. It had been a week of real soldiers' life, minus most of its dangers. They had hiked over rough country roads, been out on dress parade, exhibited themselves before the governor and his staff, made business for the public carriage drivers, flirted with the girls and nursed some sore feet. All these things did the boys do and more. They were well behaved and won the approval of their superior officers.

In the march from Harvards Crossing to Augusta, a distance of 21 miles only one of the boys of Co. D. got foot sore so that he was unable to walk a part of the distance. Fred Lovering was obliged to be carried in the ambulance a part of the way as his feet became sore but he was soon able to get about again and came out all right.

Thursday was governor's day and Co. D. escorted Governor Cobb from the State house to the encampment.

The Georgian Bay Region.

It requires no particular knowledge of woodcraft and no physical labor to make a trip through the great Algonquin Archipelago, with its four hundred miles of lakes, and its impenetrable forests, which means no exhaustive marches through the forest, where every man must carry from forty to one hundred pounds of camp supplies and encounter difficulties that prevent the company of women and children. For family recreation there is no region on the American continent equal to Lake Huron and its thirty thousand islands.—W. R. Bradshaw in July Field and Stream.

What Buddha Taught Marking.

There are three chief points in the message and teaching of Buddha:

First, he taught men to be lamps, to find the light and way for themselves.

Secondly, he taught absolute compassion.

Thirdly, he taught that as he was a human and had attained enlightenment, so others could likewise attain.

But, greatest of all, he taught that he could put aside the fruits of attainment until others would also attain, so great his love for humanity.

Oxford's Summer School.

In Charge of Prof. Caldwell, Son of Oxford County.

There is a regularly instituted summer school at Lake Whitney, in charge of Prof. Adelbert F. Caldwell, Professor of English in De Pau University, Greencastle, Indiana. He is the son of Leonard Caldwell of Oxford, so the beauties of this spot in his native town were well known to him. Some seven or eight years ago, Mr. Caldwell, the elder, erected a cottage on the shores of this beautiful Oxford lake, and this formed the nucleus about which the summer school was built.

The first term was held six years ago. At that time only six pupils were registered. The second year the number was doubled, and since that time the number has increased each year until the present season when 51 are registered. The boys come from all over the eastern half of the United States, the western limits being Indiana and Alabama. The one original cottage has been increased to several.

The object of the school is to furnish a good healthy outing for boys in conjunction with study, all under suitable supervision and instruction. The board of instruction this year includes such names as Franklin W. Johnson, A. H., principal of Morgan Park Academy, Chicago; Norman Leslie Bassett, A. M., of Augusta; William E. Sargent, A. M., of Hebron Academy; John Orville Newton, and Edwin H. Hughes, D. D., president of De Pau University.

More Bass than in Eight Years.
A remarkable catch, over 200, was brought in by Mr. Fannin, a summer boarder at the Lake House. As compared with most years the fish in the lake have bitten remarkably well. As there are a number of boarders here the lake is about drained most years but this year there are enough for all. Mr. Fannin, who is boarding at the Lake House, says that he has brought in over 200 bass that will pass the law. He also states that this is more than he has ever caught before for eight years. Mr. Fannin has brought in his allowance a few times, and he has caught nine quite a number of times. It is thought that the water being so high is the cause of so many being caught.

Rand, she made the first flag ever raised in North Waterford. She was married at the age of 18 to A. W. Murch of Gorham, where she lived till her husband's death in 1871. NORTH LOVELL.

Mrs. William Gammon.

Sarah E. (Barker) Gammon passed away Aug. 7, after a severe sickness of several weeks. She had been out of health for more than a year with a bad heart trouble and the doctors assumed a malignant form the first of the summer. Everything that love and skill could do was all in vain. She bore her last sufferings with the patience and heroic fortitude that was so characteristic of her, caring so lovingly for the comfort of those around her, even in her weakness and distress, and believing that all would be well.

She was a loving mother, a devoted wife, a kind neighbor and faithful friend, ready to assist in sickness or trouble, feeding the hungry, helping the needy and ministering to the sick and suffering.

She leaves a husband, three daughters, ten grandchildren, four brothers, besides a large circle of relatives and friends to mourn their loss.

Engine Run Over Both Legs.

A serious accident occurred here this week Tuesday forenoon, when A. E. Vallenourt, a brakeman on No. 91 G. E. going west, slipped while trying to jump on and get over the train stopped here to be helped up the grade and the accident occurred near the upper switch which he had jumped off to look. As he tried to get on to the van his foot slipped and the assistant engine run over both legs, the left one near the ankle cutting it completely off and the right one just above the knee. Engineer Cookson being on the opposite side of his engine did not see the accident but fireman Parker happened to look out just in time to see the man fall. They immediately whistled an alarm to stop which they did as soon as possible.

The freight backed up on a siding and took off the engine and took the man to the Central Maine General hospital after being examined by Dr. Wheeler, who also accompanied the party to the hospital. There seems to be a small chance for him and if he does live it will be with the loss of a greater part of both legs. Mr. Vallenourt has a family living at Rumford Falls.
